WHY CHOOSE GREENFIELD?

Our commercial and agricultural projects include both **new construction** and **repairs/restorations**. We work with you even in **occupied** and **fully operational job sites**. We can also **plan, manage, and build multi-phase jobs**. We work with manufacturers and designers to produce **long-lasting, functional structures**. Call us today and bring our **project management skills** and **extensive construction experience** to your next project.

CONTRACTORS LLC
GREENFIELD

“BUILDING YOUR FUTURE”

WE DO IT ALL

PLANNING

After initially discussing your goals and expectations of a fabric structure, we assemble a plan that considers budgets, schedules, and site requirements for your unique project.

DUE DILIGENCE

Before the construction of your fabric structure begins, we perform due diligence upfront to help prepare your site for installation. We aim to predict and prevent problems before they cause unnecessary delays, ensuring the smoothest installation process possible.

CONSTRUCTION

Our team of expert contractors is ready to assist when construction begins in full. From sequence to production and quality control, we stay focused on the goal. Our experienced builders understand the care and precision required to erect your new fabric structure successfully.

PROJECT MANAGEMENT

Our project managers ensure corners aren't cut, exact building specifications are met, you have all necessary materials/ equipment, and construction goes off without a hitch.

POST-CONSTRUCTION

After construction is complete, Greenfield goes through the last checks of your structure. We perform necessary site cleanup alongside systems training and final inspections. Before we leave, you and our team have one final walkthrough to ensure your complete satisfaction and help with warranty paperwork.

FOLLOW-UP SERVICE

Greenfield offers additional contracting services. We provide preventative maintenance and repairs for fabric structures in need of attention. Our goal is to help our clients keep their fabric buildings in the best shape and for the longest time possible.
